

JOSHUA JEEMON

Data Analyst • Business Intelligence • Predictive Analytics

joshuvajv.d@gmail.com | +971 0565906727 | Dubai, UAE | [LinkedIn](#) | [GitHub](#) | Portfolio

PROFESSIONAL SUMMARY

Results-driven Data Analyst with 4+ years of hands-on experience in business intelligence, predictive modelling, and data pipeline automation across fintech, FMCG, and non-profit sectors. Proven track record of translating complex datasets into strategic decisions accelerated multi-site decision-making by 30% at UNICEF India and contributed to a forecasted 15% EV market share at Ayka Control Systems. Proficient in Python, SQL, Power BI, and Tableau, with a strong academic foundation including a PGDM from IIT Kanpur and an ongoing MSc in Data Science (University of Europe, Dubai). Adept at stakeholder communication, cross-functional collaboration, and building scalable, ATS-ready reporting systems for global organisations.

CORE COMPETENCIES

Python (Pandas, NumPy, Scikit-Learn)	SQL & Advanced Querying	Power BI & DAX
Tableau	Excel (Pivot, Power Query)	Data Pipeline Automation
Predictive Modelling & Forecasting	ETL Design & Orchestration	Market Intelligence
Business Intelligence (BI)	EDA & Statistical Analysis	Dashboard Architecture
Google Sheets API	Jupyter / Google Colab	Git & GitHub
AWS Cloud Analytics	R & R Studio	CRM Hygiene & Ops

PROFESSIONAL EXPERIENCE

IT Faculty & Assessor | [Explore Educational Institute \(EEI\)](#)

Nov 2025 – Present • Dubai, UAE

- ▶ Deliver Pearson HND / BTEC Level 3 modules in Cloud Computing and Data Science, integrating AWS Academy and Python to bridge academic theory with industry practice.
- ▶ Architect hands-on lab environments in Google Colab and AWS, increasing student engagement in live data workflows.
- ▶ Manage end-to-end cohort assessment and mentorship for 30+ students, maintaining a 100% Learning Outcome submission rate.

Business Analyst | [Hurix Digital](#)

Jan 2025 – Sep 2025 • Mumbai, India

- ▶ Engineered structured B2B intelligence databases using Python and Excel, improving data retrieval efficiency by 7% and supporting a pipeline of 200+ target accounts.
- ▶ Developed and deployed automated ETL workflows that reduced manual reporting time by 2 hours per week, freeing analyst bandwidth for strategic tasks.
- ▶ Conducted cross-functional EDA with IT and Sales teams, surfacing insights that improved CRM data hygiene by 11%.
- ▶ Designed and maintained interactive Power BI dashboards to increase senior stakeholder visibility into KPIs across three business verticals.

Development Team Lead | [UNICEF India](#)

Oct 2023 – Sep 2024 • Mumbai, India

- ▶ Spearheaded data operations across 7 field sites, managing outreach datasets for 50,000+ beneficiaries using Google Sheets API and internal mobile applications.
- ▶ Architected centralised BI dashboards and standardised reporting templates that accelerated executive decision-making speed by 30%.
- ▶ Performed trend analysis and forecasting on outreach KPIs, enabling data-driven resource reallocation that improved field efficiency by an estimated 20%.
- ▶ Facilitated technical stakeholder management between field teams and IT, achieving 99% uptime on digital data collection infrastructure.

Data Analyst | Ayka Control Systems

Aug 2022 – Jul 2023 • Mumbai, India

- ▶ Conducted data-driven EV market analysis using Python and Excel, delivering forecasts that informed a pre-launch strategy targeting a 15% market share.
- ▶ Built interactive Tableau dashboards visualising EV adoption trends, product performance, and competitor benchmarking for C-suite presentations.
- ▶ Prototyped end-to-end analysis pipelines using Jupyter Notebooks, Ubuntu, and R Studio, reducing ad hoc analysis turnaround time by 40%.

Business Analyst Intern | ShieldByte Infosec Pvt. Ltd.

Jul 2023 – Oct 2023 • Mumbai, India

- ▶ Revamped audit protocols to align with updated government regulations, achieving a 98% compliance rate and reducing compliance issues by 30%.
- ▶ Streamlined audit formats and internal procedures, boosting audit efficiency by 20% and reducing annual audit discrepancies by 25%.

KEY PROJECTS

LLM Council — Multi-Agent AI Debate System

- ▶ Built a multi-agent framework (Gemini + Llama) where models debate queries to synthesise verified consensus, reducing hallucination rates; stack: Python, FastAPI, React.

EV Market Forecasting Model

- ▶ Designed a Python-based forecasting model projecting 15% market share for an EV product launch; presented findings via Power BI to executive stakeholders.

UNICEF Outreach BI Dashboard

- ▶ Built a Tableau dashboard tracking KPIs across 7 field sites; improved decision-making speed by 30% by replacing manual reporting with automated data pipelines.

CRM Automation Suite

- ▶ Automated B2B research and CRM hygiene workflows using Python web scraping and ETL scripts, cutting weekly manual research time by 15 hours.

EDUCATION

MSc Data Science University of Europe for Applied Sciences, Dubai, UAE | 2025 – 2027

PGDM – Data Analytics Indian Institute of Technology (IIT) Kanpur | CGPA: 9.0 | 2024 – 2025

B.Tech – Comp. Science Xavier Institute of Engineering, University of Mumbai | CGPA: 8.474 | 2019 – 2023

CERTIFICATIONS

Power BI Data Analyst	Microsoft 2024
Google Data Analytics	Google Professional Certificate 2024
AWS Data Analytics	Amazon Web Services 2024
Advanced Data Analytics	Indian Institute of Technology (IIT) Kanpur 2024
Tableau Certified	Edvancer 2024
